Hello, Yasmin,

As per your request, I have filled the slots that were listed as still available on the tentative conference schedule for Wednesday. ## Health Day at Hesidion Clinic

by Shai Herzog on April 14

Hesidion Clinic hosted a successful Health Awareness Day this past Saturday. The event was held as a way to thank the community for supporting the clinic over the past 15 years. It was well attended by both Hesidion Clinic patients and members of the general public.

Attendees participated in a variety of presentations and everyone received free water bottles, notepads, and other items from event sponsors. Participants who provided a special code were offered a complimentary physical checkup from the team of clinic physicians.

During the event, a sizable line formed at Dr. Thierry Daumas' table. "I came out today to learn about skin care and advances in eye-care technology. But Dr. Daumas' talk about how to prevent cavities and improve

oral health provided me with the most helpful information," said attendee Liana Stawinski.

By far the most popular event was nutritionist Jillian Opala's presentation on healthy eating habits. More than 100 people, many of them retirees, flocked to hear the latest on super foods. The event took nearly twice as long as expected, as Ms. Opala answered a steady stream of participant questions.

Children were delighted to take part in a health contest involving questions about general health and hygiene. The winners received toys and certificates from the game host. The day was such a success that Hesidion Clinic director, Lance Verhoeven, is already considering making it an annual event.

### What Our Students Are Saying

3 June by Atsushi Koshi

I took a finance course at SBS. The school I am now attending in the United Kingdom had a prerequisite that I had not fulfilled while earning my **Bachelor's** degree, so the eight-week course was convenient. However, I couldn't **afford** the high rent in the area, so I had to commute, and the traffic in that area is terrible. I wish SBS offered a **dormitory** for students at the school. The quality of instruction was superb. My lecturer was Diara Rhodes. Though she tended to rush through lectures, discussing a wide range of topics in a small amount of time, I did learn a lot from the reading and from her descriptions of real-world experiences. The way she solved business problems was a **source of inspiration** during my graduate school interview, and it is also helping me in my current classes.

Dear Ms. Beaumont:

I am writing in regard to Anton Hoang's application for employment. Since Mr. Overbeck is on leave this semester, he asked me to respond in his place. Mr. Hoang, who graduated in the top five of his class, demonstrated exceptional culinary skill and a strong desire to learn. He received a glowing review from Sabine Riou, the renowned chef who supervised his three-month internship. I am confident Mr. Hoang will be a valuable asset to your establishment.

## Spectacular Bridge Created with Super Cranes

By Marcia Brunon

March 14

Five years ago, the town of Stonewell, situated at the foot of the Marshall Mountains, decided to finance the building of a bridge across the Stonewell River. It was planned as a much-needed northern route for the town. — [1] —. The efficiency of the project was directly attributable to two RWC451 cranes, manufactured by Ronsonworks, a company based in England.

The two identical tower cranes were owned by the construction firm Redding Builders. One crane was assembled at the south bank of the river, while the other one was placed on a concrete pylon in the center of the Stonewell River. — [2] —. The assembly of the second crane was particularly challenging, as it required the use of another crane on a floating barge.

“Any large project is going to require

unforeseen adjustments that may disrupt an official construction schedule,” said Roger Lee, chief engineer of Redding Builders. — [3] —. In this case, the metal anchors that connected the bridge to the pylons were determined to be too small. The new anchors weighed 22 tons, which is within the safe lifting capacity of an RWC451 crane. — [4] —. Engineers reinforced the existing cranes for extra security, and the cranes performed well.

Today, this postcard-worthy bridge is the pride of Stonewell, featuring viewing platforms for pedestrians, hikers, and visitors at the base of each pier overlooking the mountainous valley. Construction materials and colors harmonize beautifully with the local environment. All design elements, including the piers, viewing platforms, and railings, complement the natural landscape, making the bridge a hit with everyone from hikers to the truck drivers who now include it in their regular route.

174. What is NOT suggested about the Stonewell Bridge?
- (A) It provides a northward exit out of town.
  - (B) It was designed for both pedestrians and vehicles.
  - (C) It was designed to **blend with the natural setting.**
  - (D) **It required more workers than first estimated.**
175. In which of the positions marked [1], [2], [3], and [4] does the following sentence best belong?
- "The project, which was expected to take four years, was completed in less than three."
- (A) [1]
  - (B) [2]
  - (C) [3]
  - (D) [4]

To: Absalom and Twigg Law Firm employees  
From: Shawna Montgomery, Office Manager  
Subject: March plans  
Sent: February 12  
Attachment: Schedule

As most of you are aware, our schedule will be a bit **challenging** during the first week in March. Various rooms and offices will need to be **vacated** for certain periods to allow work crews to repaint, recarpet, and replace old furniture. Affected employees will need to **box up** *all* their office items by 3 P.M. on the day before their room is scheduled for work (please see the attached schedule). Two teams of workers will be **on-site**, so more than one room at a time will need to be **vacated**. Note that any rooms due for work on Monday must be packed up and vacated by Friday afternoon, February 27.

Boxes will be provided. Leave your boxes in the rooms for the work crews to remove. Please label them with your name and office number so that the crews can return them to the correct offices once the work is complete.

Please make arrangements to continue working on your assignments while the work crews are in your rooms. The conference room (Room 409) will remain available to be used as a workspace during the entire week. Another possible option is to request **permission** from your supervisor to **telecommute** for one or two days.

Please have patience with these temporary inconveniences and do not hesitate to contact me with any questions or concerns.

**Rating:** ★★★★★

Review: This product is amazing! I work as a **caterer**, and I've used a lot of different food processors. Kitchenware Utopia's C3 is by far the best I've found. Its motor is very powerful, and the many different blades and settings make it extremely **versatile**. The settings are also **straightforward**. It's expensive but well **worth the investment**, and since I'm a loyalty club member, the price was reasonable. My only complaint would be that it's very heavy and therefore not as **portable** as I'd hoped. Overall, though, I'm exceptionally satisfied with this product.

We are very glad to hear you are happy with our C3 food processor. Customer satisfaction is our number one priority. We would like to respond to your complaint and provide a suggestion regarding your concerns. Our C2 processor might be better suited to your professional needs. Dear Ms. Bellandini:

I have some news regarding your article that is scheduled to be published in the next issue of *Delicatessen Magazine*. — [1] —. Yesterday, we learned that a major advertiser canceled their contract with us, and as a result, we will have to reduce the number of pages in our upcoming issue. This is extremely unfortunate, but we just do not have enough money without these ads to publish the magazine in its current format. — [2] —.

We know that readers have enjoyed reading about your experiences in Italy. — [3] —. While your eight-page story about working as a food photographer is excellent, in order to fit in the **slimmer** issue, it will need to be cut by about thirty percent. Although I sincerely hope you agree to having your article published in our upcoming issue, I will understand if you would rather have the article published in full at a later time. However, I have to let you know that the magazine industry is not always the most **stable** business, and for this reason, I do not know if there will be space for your story in the future. — [4] —.

Please let me know as soon as possible what you would like to do. Should you agree to edit the story, I will need the new version by Monday.

From: Melvin Myers <mmyers@coltonmedical.org>  
Date: June 10  
Subject: Parking area reassignment

---

Dear Colleagues:

I just want to remind everyone that crews will begin construction on the new Colton Medical Nutrition Center on June 18.

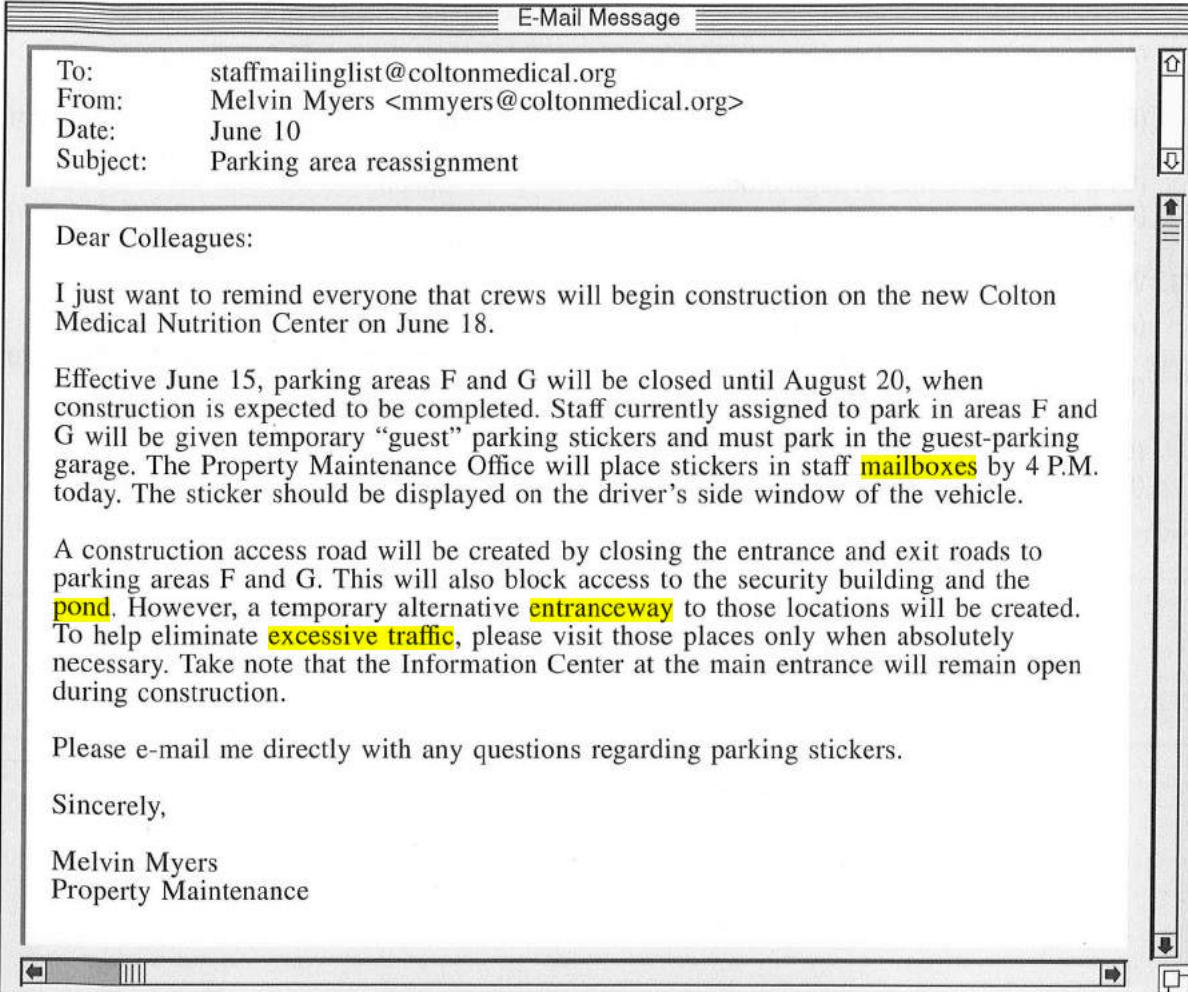

Effective June 15, parking areas F and G will be closed until August 20, when construction is expected to be completed. Staff currently assigned to park in areas F and G will be given temporary "guest" parking stickers and must park in the guest-parking garage. The Property Maintenance Office will place stickers in staff mailboxes by 4 P.M. today. The sticker should be displayed on the driver's side window of the vehicle.

A construction access road will be created by closing the entrance and exit roads to parking areas F and G. This will also block access to the security building and the pond. However, a temporary alternative entranceway to those locations will be created. To help eliminate excessive traffic, please visit those places only when absolutely necessary. Take note that the Information Center at the main entrance will remain open during construction.

Please e-mail me directly with any questions regarding parking stickers.

Sincerely,

Melvin Myers  
Property Maintenance

Dear Ms. Torres:

Thank you for taking the time to complete a survey about your recent experience at Woodruff's. We appreciate that so many people took the time to provide us with feedback since it helps us to improve the quality of our service.

We were happy to learn that your overall experience shopping at Woodruff's was a positive one. However, we were sorry to see that you shared one area of dissatisfaction with a significant **proportion** of the customers who responded to the survey. I want you to know that we are taking the survey results seriously. We plan to improve this area with training soon.

As an apology for our failure to meet high standards in all areas, I have attached a voucher for 15% off a future purchase (good for one year) at any of our three Clarksville locations. We look forward to serving you in the future.

Sincerely,

Marietta Passante

Dear Mr. McGivern,

I received my October order, but there were some errors. I received 20 dinner plates instead of 40, and seven water **goblets** arrived with **cracks** in the glass. Have you switched **shipping carriers** recently?

I have been a loyal customer since you opened five years ago, and never before have I experienced problems with an order. Incidentally, you might like to know that I spoke this morning with Ed Salek, owner of nearby Salek's Café. He mentioned that his last delivery from you had some mistakes too.

**How soon can you fix my order?** I have three parties coming up next week, so I need these items quickly.

Sincerely,

Deshauna Jacques

Dear Mr. Nunez:

I'm writing concerning the job in my dining room that I'd like to contract you for. I'd like work to begin on April 10, but after looking at the estimate you sent me, I have a question about your calculation of the total cost. Specifically, does your estimate **take into account** any permits that would be needed for the job? A colleague told me that there is an **ordinance** that went into effect last month requiring building permits for any renovation project. I really liked the job you did installing carpeting and painting in my living room last year, and I would prefer to work with a company that I know. However, I am on a tight budget, so I need to consider the charge for the building permit in the overall cost of the project. Could you please get back to me at your earliest convenience?

Sincerely,

Jenny Choi

Questions 196-200 refer to the following article, e-mail, and text message.

*Cardiff Daily Times*

In Brief—20 March

As reported earlier this year, Gold Kettle Grocery is opening an additional regional distribution centre in Cardiff. Construction was postponed for a time because of an unanticipated problem related to the ground conditions on the site. However, the problem has been resolved, and the 40,000-square-metre centre should be fully operational in June. The grand opening is planned for the

**fourth of June.** The warehouse has a special area with state-of-the-art equipment to store foods that need to be kept frozen or cool. The site will also include loading bays and offices.

The distribution centre is expected to create more than 400 new jobs, according to Myles Simler, vice president of operations. Because of the size and scope of the project, a variety of jobs will be needed, from warehouse loaders and drivers to **clerical positions.**

Dear Myles:

Thanks for giving me a lift to the grand opening earlier this month. I do not believe I have ever seen such a well-planned event. We should send Ping Chen something to show him our appreciation for organising it.

Now that the centre in Cardiff has been open for a few weeks, I think we should consider hiring a company that forwards automatic notifications to employees' mobile phones. Such a service would allow us to get messages to them quickly and also prevent mistakes with shipments. I have a contact who has worked in customer service at Calls For You. I think it's a good company, but Raven Notifications also looks good, and their rates are lower. I have attached information about both companies to help you decide which one we might use. Let me know what you think.

Sincerely,

### *Washington State to Introduce Its Very Own Apple*

By Julia Richards for *The Agri Monthly*

Scientists at Scales University reported last month that they have completed the development of the “Shiner Crisp,” the first apple that Washington state farmers will have trademarked all to themselves. — [1] —. The first Shiner Crisp is expected to become available to consumers as early as next year. — [2] —.

Apple breeders design new apples especially to better compete with such traditional apple varieties as Reds and Juiceys. The development process involves a

considerable investment of time and money in repeated taste tests for their new fruits.

— [3] —. Whereas Reds and Juiceys average \$1.29 per pound, new types of apples (such as the hugely popular Branburbs and Honey-Sweets) are raking in at least three times as much.

These additions have major long-term impacts on the market, too. Two decades ago, Reds and Juiceys comprised over 50 percent of all apple sales; now their sales are less than 25 percent of the market. It is no wonder that apple breeders are racing to come up with the next popular apple! — [4] —.

- 161.** What is the purpose of the article?
- (A) To give an opinion on Shiner Crisp prices
  - (B) To recruit students for Scales University
  - (C) To provide a detailed explanation of price differences in the apple industry
  - (D) To announce the design of a new apple
- 162.** According to the article, what is true about Reds and Juiceys?
- (A) They are uniquely trademarked to Washington state.
  - (B) They are less expensive than Honey-Sweets.
  - (C) They have increased their sales recently.
  - (D) They were bred by university scientists.

- 163.** In which of the positions marked [1], [2], [3], and [4] does the following sentence best belong?

“In other words, these new types of apples are designed for big flavor and big profits.”

- (A) [1]

Dr. Matambo has also been a familiar face at local charity events, and in particular, he has helped to raise money for many area schools. His immediate plans are to take a month-long vacation on a cruise ship with his wife, Alicia Matambo.

Although Dr. Matambo is retiring, he will remain involved with the clinic as a consultant. A new director has been approved by the Hawthorne Clinic's board of trustees and is expected to be announced later this week.

**Subject:** Temperature question

**Date:** May 1

To Whom It May Concern,

I'd like to share some feedback about the Aeolus Jetbake 3. Our company runs the dining service for the businesses located in the Red Umbrella Complex in downtown Austin. We purchased an Aeolus Jetbake 3 last month. This oven is by far the most efficient oven we've encountered, with its large capacity and rapid cooking times. This is critical, as my employees prepare meals for a large number of people each day. The lighting is great, so we can easily see what we're cooking, even with three or more racks in use at once. However, our croissants—a favorite, but tricky to make—are not turning out right and our pastry chef can't seem to find the right temperature settings. Also, why are the units on wheels? They are heavy, and we don't need to move ours around the kitchen, but the wheels take up space unnecessarily. I am not exactly sure what, if anything, we are doing incorrectly. Please let me know at your earliest convenience how we can bake more effectively.

Thank you for your prompt reply,

Aldo Castro

Dear Mr. Castro,

Thank you for your recent e-mail about the Aeolus Jetbake 3. My guess is that the trouble you are having is related to the 1.0 control panel that is standard on most of our models. This is interchangeable with panel 2.0, which allows for finer adjustments and includes a feature to set the heat-circulating fan to three different modes. I will ship one to you without charge. Please reply with your shipping address and the serial number of your oven. It is located on the back, just under the factory inspection certificate.

Thank you for your purchase!

Yours sincerely,

Iris Martz

Dear Mr. Najarian,

Thank you for writing to us at the Pamakani Hotel to ask if we could recommend a surfing school nearby. ### **Pop Superstar Coming Home**

LAFONT (May 23)—Sonia Benitez is coming back to where it all started, and she's giving back. The international pop superstar announced that she has added a free concert in Lafont to her Long Road tour, which begins on June 2. Benitez will perform in Lafont on July 17.

Born in nearby Ollender, Benitez moved to Lafont with her family when she was five years old. She graduated from Jasper High School, where she first caught the attention of peers and teachers by winning the school-wide talent show at the age of fourteen, the first time she ever set foot on a stage. Since then, she has embarked on a professional career that has taken her to five continents and has won her millions of fans all over the world.

Benitez made the decision to add a concert in Lafont when her manager, Jeremy Hampton, brought to her attention a three-day break after a show in Chicago. "It was obvious to both of us," Benitez said in a

phone call from her recording studio in Los Angeles. "To be so close to Lafont with an extra three days and not do a show would be unthinkable. It was a very easy decision to make."

The only challenge was finding a venue that would accommodate all of Benitez' hometown fans. The town's largest theater seats only 1,200. Lafont Mayor Ellis Swanson came up with a creative solution. "He suggested an outdoor concert," said Benitez. "Not at a stadium, but at a local farm outside of town. That way there won't be a limit on how many people can attend. We'll just set up a stage in the middle of a huge field."

Local radio DJ Taylor Wendel estimates that as many as 8,000 fans might turn out for the concert.

"Considering how popular Sonia is around here, and considering the concert is free, I think that's a conservative estimate," says Wendel. "It's going to be a memorable event."

### **Benitez Plays to Big Crowd**

LAFONT (July 18)—Sonia Benitez' homecoming concert last night in a field at Gingham Hills Farm was nothing short of phenomenal. The crowd of 10,000-plus was delighted to welcome the hometown hero, who was making her first trip back to Lafont in more than 12 years. Benitez put on quite a show, extending her usual two-hour set of songs by another hour with an additional eight songs.

The evening's most memorable moment (of which there were many) came when Benitez was joined onstage by pianist Genevieve Parker, another native of Lafont and friend of Sonia's since the age of six. While perhaps not as well known as Benitez, Parker is an equally accomplished musician, having studied classical piano in Vienna and having toured internationally with the Vienna Touring Orchestra.

  
**Sonia Benitez in Lafont**

## We're Doing Something Right

by Ariel Garman

SUSTERN (November 8)—According to a recent study conducted by the Mid-Atlantic Hotel Association, tourism at our beaches improved significantly this past summer, and the hotel industry showed greater profits this year than last. Hotel occupancy averaged 94 percent during the peak summer months. — [1] —.

Sustern saw the opening of the area's largest hotel, The Glaston, last spring. The new hotel was at full capacity nearly every weekend during the summer. Weekday occupancy also exceeded expectations.

The hotel's manager, Anika Bastien, said, "Tourists were thrilled with the array of

amenities offered, including 24-hour dining options, a free shuttle to nearby beaches, and free Wi-Fi. In fact, many have already reserved rooms for next summer. — [2] —."

Sustern has become the most popular tourist destination in the region, with about 20 percent more beachgoers than the Delmire shore, its biggest competitor. — [3] —. Experts attribute this to the growing number of outlet stores in Sustern, overall lower prices, and an abundance of new restaurants, hotels, and community events. ## Buy for Business Reviews Miniprojectors

### HJ6 Miniprojector by Collierpro

The HJ6 is a top-of-the-line miniprojector, which is no surprise to those familiar with Collierpro. As usual, the company spared no expense in making sure this projector is easy to take almost anywhere: it is lightweight and comes with its own carrying case, which includes a remote control and a tripod. Its internal lamp is much brighter than that of other projectors its size. Due to its brightness, the HJ6 was able to project the sharpest picture of all the miniprojectors that we tested.

The major weakness of the HJ6 is its speakers. They are not nearly as loud as one would expect, given the superiority of all the other features. You can easily plug in different speakers. It is a miniprojector, however, and its small size means it is not the best choice for giving presentations in lecture halls or large conference rooms.

Overall, this is a fantastic projector for travelers, and we recommend it. This is a new model, though, and the sticker price is quite high. It may be best to hold off making a purchase right away. Projectopro will introduce the Pico P17 projector next month, so the HJ6's price may drop in order to remain competitive.

## Buy for Business Reviews Miniprojectors

### The Pocket Mini C by Excellentronics

The Pocket Mini C is a reliable projector and a good buy for those who aren't interested in spending a lot of money. Like its competitors, it is lightweight and compact. The feature we were most impressed with is its battery: it can run for up to six hours, which is much longer than the other battery-powered projectors that we tested.

There are a few downsides, as could be expected from a budget projector. The ports are in awkward locations and the menu organization is confusing, so setting up the projector is not straightforward. The audio capabilities are also limited; when the volume is turned up, the audio can sound muffled. But overall, it's a decent miniprojector for a reasonable price.

- 181.** What is suggested about Collierpro?
- (A) It is owned by *Buy for Business*.
  - (B) It makes high-quality electronics.
  - (C) It is a new company.
  - (D) It offers discounts for business travelers.
- 182.** What is mentioned as a feature of the HJ6 Miniprojector?
- (A) It is less expensive than the Pico P17.
  - (B) It is sold with a spare power cord.
  - (C) It has a rechargeable battery.
  - (D) It produces a very clear image.
- 183.** Why should customers wait before purchasing the HJ6 Miniprojector?
- (A) The model's features will be updated soon.
  - (B) The projector might become less expensive soon.
  - (C) Minor problems with the machine will be fixed soon.
  - (D) Another company will buy the projector's manufacturer soon.
- 184.** What criticism do both of the reviewed projectors receive?
- (A) They are too heavy.
  - (B) They are not easy to set up.
  - (C) Their sound systems do not work well.
  - (D) Their projections are not large enough.
- 185.** According to the second review, what is the best feature of the Pocket Mini C?
- (A) Its design is attractive.
  - (B) It is easier to carry than other projectors.
  - (C) It has more ports than other projectors.
  - (D) Its battery lasts for a long time.

Mr. Neves,

Thanks for calling to discuss your progress on the house construction. To summarize our conversation, even with the delay until September 22, the house should be ready for me to move into before my apartment lease expires on October 10. I've thought more about the status reports we discussed, and twice a week would be best. My understanding is that you will now document these changes to the contract so that I can sign off on them this week.

Thanks, as always, for your careful attention to this project.

## **More Improvements Ahead**

At its meeting on Tuesday, the Eldonbury Town Council voted to explore options for additional work to be done on town facilities. According to Charles Gruber, town clerk, the renovation of the Eldonbury Community Centre came in well under budget. The council, therefore, decided to compile a list of smaller improvement projects that could be done with the leftover funds.

Some suggested projects include adding a covered entryway to the Eldonbury Public Library, improving lighting in Westfall Park, and replacing floors in the Town Hall. According to Mr. Gruber, the council will solicit ideas from members of the public. Interested parties may voice their opinions at the council's meeting on Tuesday, 20 March, at 4:00 P.M. or send an e-mail to the council office before 31 March. After the period of public comment, the planning committee will put forth a final list for the council to discuss, with a decision expected by 15 April.

| <p>Dear Town Council Members,</p> <p>I read that you are accepting suggestions for the use of the leftover money from the Community Centre renovation. Because of a previously scheduled appointment, I was not able to attend the council meeting, but I would like to express my support for the idea of expanding the lighting in the park. While the cost of that project is likely to be reasonable compared to that of the other possibilities, the improved lighting would increase the usability of Westfall Park and would benefit many people, especially in the dark winter months. A well-lit, nicely maintained park is an obvious source of civic pride, and something we could all appreciate. I hope the council will seriously consider this project.</p> <p>Sincerely,</p> <p>Heather McCaffrey</p> |                              |

Dear Mr. Gruber,

I was glad to hear that the latest renovation project was completed with money to spare. Although the Community Centre does sponsor activities for citizens of all ages, it is, for the most part, visited by adolescents and parents with children. Therefore, I would like to suggest that the next project focus on a place more often used by Eldonbury's older people.

The public library is a natural gathering place for older adults, and a new entryway would provide a dry, protected place for people to chat or wait for transportation. It would be a noticeable improvement, likely to be applauded by citizens who did not feel that they gained much from the improvements to the Community Centre. In April, when the votes are cast, please consider this suggestion to balance the interests of all members of the Eldonbury public.

Thank you,

Sunil Pai

Dear Marzena,

I'm sorry to hear about your luggage. At least the airline has located your suitcase.

Since it's impossible to determine when the rest of your luggage will be found and returned, I've sent you more samples by overnight shipping. That way, you will not have to go empty-handed to tomorrow's meeting with the clients. There are five packets of each flavour as well as two small sauce jars with labels. I sent the items by BDW Shipping to your hotel. The package will be delivered by 8:30 a.m. so that you are sure to have the sauce samples and packaging to show when you speak at the meeting at 11.

Take care,

Harry Gilbert

**Product:** Stylero RD525 Three-in-One Printer  
**Price:** Regularly \$120.00 Now \$99.99 (Offer valid March 1–March 15)  
Includes one complimentary Stylero-01 (black) ink cartridge with purchase! Stylero color ink cartridges sold separately.  
The RD525 is one of our most popular models: a wireless color printer, scanner, and photocopier in one. It's perfect for everyday printing needs in homes, classrooms, and small offices. Though compatible with many brands of ink cartridges, we recommend our own Stylero-brand ink, which lasts up to twice as long as other products. A three-year warranty is available for \$7.95.

<http://www.loveitornot.com/productreviews/stylero/RD525>

(April 3) I bought the Stylero RD525 last month for my home office. I give digital photography lessons out of my home several nights per week and need easy access to color prints for my students' work in my classes. I haven't had any trouble with the photocopier or scanner, and the quality of the prints is excellent in both color and in black and white. However, I've been experiencing delays with the printer feature at times. There is a five-minute lag between sending my prints from the computer and when the printing actually begins. I can't use this device for instant prints in class, or I lose valuable class time. I wish I'd bought a different printer, or at least bought the warranty to get it repaired!

Alicia Boisvert

(April 5) I bought this printer for my classroom and noticed the same issue that Ms. Boisvert described. There is a relatively simple fix though. Most printers go into “sleep mode” to conserve energy between prints. If the length of time before entering sleep mode is set for too short a time, there will be a delay between sending the photos from the computer and the actual printing because the printer will need to warm up each time. Make sure you adjust the sleep mode feature to wait at least an hour before going to sleep. The instructions are in the manual. I always turn the printer on a few minutes before class and it doesn’t pose an issue. It’s an easy adjustment and I think the RD525 is a good product for the price.

#### Issue with Baardsen

Posted by: Patricia Canton

I bought my Baardsen washing machine five months ago for use at my bed and breakfast inn. Overall, I have been satisfied with the appliance features. The extra rinse cycle is helpful for guests who are sensitive to chemicals or perfumes in laundry detergent. I needed a washer with the largest capacity so it could handle my typical volume of bed linens and towels. The main issue with my machine has been an annoying banging sound. It happens sometimes when the guests use the machine. It is a problem because the laundry room is situated just off the patio where guests often dine. I sent a message to the company asking for help and they informed me that the load needs to be evenly distributed in the wash tub. But that didn't prove to be the source of the problem. How can I get rid of this noise?

## Patty's Bed and Breakfast Guest Services:

### Kitchen:

Enjoy the lovely spring weather by taking your breakfast, served between 8:00 and 9:30 A.M., on the patio. We offer self-service for coffee and tea around the clock. The household coffeemaker and tea kettle are next to the stove, and supplies are stored in the cupboard nearby.

### Laundry Room:

Fresh towels are provided daily and bed linens are changed weekly. If you would like to use the washing machine, please choose the eco-saving setting. Select your preferred temperature and power setting. When adding detergent, make sure the detergent drawer is closed tightly before you start the machine. If not properly secured, it may open during the rinse cycle and cause a bothersome noise. Also, the extra-rinse option is recommended if you have any sensitivity to laundry soap.

### **Subway Sound to be Upgraded**

BOSTON (April 1)—The public address systems at selected subway stations are scheduled to be refurbished, the Transit Authority announced this week. The systems are used to make announcements to commuters both on the platforms and in the stations.

Local commuters welcomed the news, although for some it was long overdue.

"It can be pretty difficult to understand the announcements at some of the stations I use most frequently," said Ian Miller, who has taken the subway to work nearly every week for the past eighteen years. "I had

heard the reports about it on TV, and all I can say is that it is about time!"

Some of the systems currently in use are more than 30 years old. Worn-out speakers, wiring, microphones, and amplifiers will be replaced with new, more reliable devices. The work should be completed in October and cost more than \$11 million.

Boston's subway system came together in stages over the course of several years. The foundational component of the system's Green Line first opened on Tremont Street in the late 1890s. It was the first of its kind in the United States.

## E-Commerce Opening Doors for African Fashion Industry

ADDIS ABABA (6 May)—Africa's role as a consumer of fashion has been on the rise in recent years. This trend is largely due to the emergence of e-commerce, which provides Africans the opportunity to buy clothing from retailers with no physical presence on the continent.

Perhaps more importantly, though, the growth of e-commerce is enabling small-scale African designers to also become *producers* of fashion, as they showcase their collections to consumers worldwide. African shopping Web sites like Jumjum and Longa are making the work of African designers available for purchase not just throughout the continent, but also as far away as London and New York. — [1] —.

“African designers are finally gaining visibility,” says Mazaa Absher, founder of

Abbi Sportscore, Africa's fastest-growing athletic footwear company. “We have always had terrific design and production capacity here on the continent, but it was hard getting it out into the world. Now we are generating more sales online than we are in our stores.” — [2] —.

Even as Ms. Absher has transformed her company into an international powerhouse, she continues to highlight the advantages of manufacturing its products in her home city of Nazret. — [3] —. Africa's strong textile sector and innovative designs combine tradition and wearability, and this formula is allowing companies like hers to set their sights beyond the continent.

“As more cities in Ethiopia—and all over Africa—improve their manufacturing capacity, it will become easier to reach the rest of the world,” says Ms. Absher. — [4] —.

- (B) They receive orders from around the world.

**167.** In which of the positions marked [1], [2], [3], and [4] does the following sentence best belong?

### Mentoring Program Sees Results

Long-time employee and Vice President of Sales Alena Russo was intrigued when a Personnel Department director approached her about mentoring a less experienced employee under a program that began last year. She is glad to have accepted the assignment. "After working with Ms. Drummond, I am more satisfied with my own duties, because I know I have helped a professional who is just getting started. I only wish that I had had someone looking out for me in my early years," remarked Ms. Russo.

Ms. Drummond explains that she "needed pointers on how to make better sales pitches." She reports that her sales are up by 20 percent now. She better understands the opportunities Broadside Electronics has to offer and what is required to become a manager. "Thanks to Ms. Russo, I have been able to define my career goals, and I am a happier person when I arrive to work every day."

New mentorship pairs are now being formed. Interested parties should contact Tim Wrigley in the Personnel Department.

Dear Ms. Carhart,

Thank you for your enquiry. Please see the attached estimate for the work you requested. Note that the price of delivery is included at no further charge unless a rush order—one providing less than three weeks' notice—is required. This is a rough estimate based on the information you provided. If you ring us at (0117) 555-2938 and provide us with a missing detail, I can give you a more accurate quote.

You might also consider including a plastic curtain with your order. This would be wrapped around and fastened to the fence, hiding the construction site from the view of pedestrians. If this interests you, we can include it in the revised quote.

Best Regards,

Howard Montalbo

Hello Daniel,

I hope you are settling in well. I'm sure you have had a busy few weeks. Around this time of year, the office manager typically begins arranging our annual company outing. I think we mentioned this during your interview in June. Previously, we have done things like going to a concert and taking a local river cruise. The outing is always great for morale, and everyone looks forward to it.

This year, I think it would be a good idea to get tickets to a sporting event. I know that many staff members are fans of the San Jose Starlings baseball team. It should be an evening game when the team is playing at home. We have a budget of \$600.00 this year. Looking at the ticket prices, it seems that will be just enough to get a ticket for every staff member.

I'm sure Elise can assist you with this; she has often helped organize the outings. Let me know if you have any questions.

Best,

Livia Romero  
Director of Administration, Loftgren Consulting

**Questions 156-157** refer to the following information.

I have spent most of my life in the woods of rural Colorado, where I have always looked to the beauty of nature for inspiration. My plates, bowls, and cutting boards are hand carved from pieces of wood that were foraged from fallen trees that I discovered while on various hikes through the forest.

Each object in my wooden kitchenware collection is one of a kind and has been carved to bring out the natural curves and grain patterns of the wood. These unique pieces can last a lifetime if stored and treated properly. They should never be left to soak in water, as prolonged exposure to water will cause them to warp. It is also a good idea to apply a light coat of mineral oil from time to time to prevent the colors from fading. For more tips on how to best protect your natural wood product from deterioration, visit [www.hollyhollingsworth.com](http://www.hollyhollingsworth.com). Thank you for purchasing my products!

Questions 168-171 refer to the following report.

**LONG ISLAND REGIONAL ENERGY AUTHORITY**  
**Residential Audit**

**Prepared for customer:** Darrah Henninger

**Property address:** 337 Barrel Street, Hempstead, NY 11550

**Reason for audit request:** The customer reported unusually high energy bills and an inefficient cooling system during the warmest months.

**Date of visit:** August 26

**Inspection summary:** The building size is approximately 366 square meters, and there is an exterior air-conditioning unit on the west side of the structure. — [1] —. The unit was installed new and is six years old.

The size of the cooling unit is more than sufficient for the building size. — [2] —. However, the return air flows through a vent that is too small. Expanding the current vent size or creating an additional vent on an adjacent wall will correct this issue.

The building has a vaulted metal roof that is poorly insulated. Reinsulating the roof is recommended. — [3] —. The use of ceiling fans on the upper level should be avoided in the warm months. Because the roof is not insulated well, the fans use an excessive amount of energy to combat the heat transfer through the ceiling during the summer, and therefore the rooms cannot be adequately cooled.

This audit has been performed by a certified energy auditor. — [4] —.

- 170.** What does Mr. Anders advise about the ceiling fans?

  - (B) They should be reinstalled in other locations.
  - (C) They should be used instead of the air-conditioning unit.

- 171.** In which of the positions marked [1], [2], [3], and [4] does the following sentence best belong?

Thank you for promptly submitting your March report. I'm pleased with the strong sales of the new whole-bean product we introduced last month. Let's keep a close eye on sales of this coffee blend through April. We may be able to add it to our regular lineup.

I like your suggestion regarding the customer loyalty program. In addition, I propose putting up a poster advertising the cards by the registers and another one in the employee lounge. Please inform me at the end of the month if these efforts have an impact.

Finally, I have good news to share. Yukihiro Asakawa began serving our Bold Macaw variety at his flagship restaurant in December, and he now wants Placid Moon to be the exclusive provider for all his restaurants. This expansion of our business is all thanks to you, since you introduced Mr. Asakawa to our coffee not long ago.

I am the program coordinator for the Cheverly Art Museum. We are so excited to have you perform with us this season. Our concerts are always well received and well attended.

Please note that we run a sound check onstage an hour before each performance to make sure that all equipment is working properly, so we recommend that musicians arrive by at least two hours before the scheduled start time. Also, if you or your bandmates need tickets for friends or family members, please let me know, and I will be happy to coordinate it. Tickets are no longer available, but we have a few seats reserved that I can offer you.

I look forward to meeting you!

Date: July 17

Hi, James,

Thanks for the information. I will be driving with the group from Arlington, so we are all set for transportation. We plan to arrive at 5:30 p.m.

On a separate matter, I hope it is not too late to request a change in venue. I came to see the July 14 performance, and the group that performed then showed a video on the screen behind them as they played. My group also has images and videos that we would like to display during our performance. I've spoken with the stage manager, and he said that our scheduled space would not allow for such a setup. While these elements are not a necessary part of our show, our audiences have found them to be very powerful; thus, we would love to incorporate them if we can.

Thank you,

Rhianon

**The Farol Grande Hotel—Updates**

We recently learned that we were reviewed in the March issue of *Business Outlook Monthly* magazine! The review was performed by an “undercover operation”—the reporter used a fictional name, posed as a regular guest, and stayed with us for five nights—so we didn’t know he was here until we saw the article! Access the magazine here to read the thorough analysis of our facilities: <http://www.bom.com/currentissues/march>.

***Business Outlook Monthly***

To the Editor:

I read with interest Gina Pimentel's take on the status of videoconferencing and other virtual meeting technologies. Although I sympathize with the author's sentiment that video and conference calls are no real alternative to meetings in person, it seems to be the trend of the future. But even with recent technological advances, in my experience, videoconferences are most effective for short meetings such as status checks. When it comes to negotiations, however, there is nothing like face-to-face interactions.

Dear Ms. Gutierrez,

Thank you for contacting Clarke-Ellis Construction for your roofing project. — [1] —. After inspecting the property, I have confirmed that the inn's main roof is in good condition and requires no repairs at this time. However, the roof of the inn's porch appears to be at least twenty years old and is worn beyond repair. — [2] —. Clarke-Ellis Construction can remove and dispose of the existing porch roof and install a new one. The replacement will be comparable to the quality, style, and colour of the inn's main roof. ## From the Shadows to the Limelight

By Calum Ellwood

Dr. Esther Nujoma, an agricultural biotechnologist with the Namibia Institute of Applied Sciences, is the author of several books on the practical applications of biotechnology. — [1] —. According to book critic Paige Kinnock of the *London Daily Register*, “Dr. Nujoma has increased the public’s awareness of the role of biotechnology in daily life through her ability to translate highly complex scientific material into simple language.”

Her latest work, *Shining Behind Shadows*, marks a departure from her usual subject matter. — [2] —. Rather, the book highlights the lives and careers of twelve of her peers from Africa and Asia. The idea came to her three years ago at a conference in Chile. As Dr. Nujoma

recalls, “Listening to one speaker after another, I realized that many of my colleagues are from regions of the world, such as Africa and Asia, that were underrepresented.” — [3] —.

The book is quite compelling. Dr. Nujoma brings to life the stories of how her peers were drawn to the profession and the effort they pour into their work.

The book does, however, fall short in one respect: it provides insights only into the lives and careers of those working in the field of agricultural biotechnology. I would have welcomed the stories of those specializing in animal, marine, or medical biotechnology, too. — [4] —. Even so, Dr. Nujoma has again succeeded in creating a work that speaks to experts and laypeople alike.

**169.** What is NOT indicated about Dr. Nujoma?

- (A) She has visited Chile.
- (B) She is a talented writer.
- (C) She is based out of Namibia.
- (D) She was interviewed by the *London Daily Register*.

**170.** What does Mr. Ellwood say about *Shining Behind Shadows*?

- (A) It focuses on scientists from Africa and Asia.
- (B) It was released three years ago.
- (C) It details why Dr. Nujoma chose her career.
- (D) It describes various branches of biotechnology.

**171.** In which of the positions marked [1], [2], [3], and [4] does the following sentence best belong?

“Its focus is not on applying biotechnology in real-life situations.”

- (A) [1]
- (B) [2]
- (C) [3]
- (D) [4]

I am writing regarding my most recent order (#GSP20896), which was delivered today. If you check my original order, you will see that I ordered six accounting record books. You sent us seven copies. On a different note, congratulations on the calendar you included in my order! The photos are even more stunning than those in the *Ancient Castles* calendar you sent us last year. Some staff members saw mine and want copies of their own. Would you mind sending two more our way?

### Contact the Hilgrave Historical Commission

**Name:** Roger Witmondt

**E-mail:** roger@witmondtlocations.com

**Comment:**

I work as a movie location scout. At this time, I need to find a location for a client's short film. The film will be set in the early 1930s, and I understand that Hilgrave has some interesting architecture from that era.

Could you suggest places I should visit when I am in Hilgrave next month? Specifically, I am looking for a vacant building with an old-fashioned storefront that has distinctive details like stripe-patterned awnings and framed display windows. While having easy access to electricity would be ideal, it is not critical; my client has a generator that can be used if necessary. My client's aesthetic requirements are the most important consideration. Thank you for your assistance.

Dear Mr. Witmondt,

Thank you for reaching out to the Hilgrave Historical Commission. The attached brochure lists the main areas of historical interest in Hilgrave. Some buildings may not meet all your requirements, but they might be worth considering.

One building that is not on the attached list is the old record store at 188 Main Street. It has been closed to business for the past ten years or so, but it seems to meet your criteria. The owner, Luke Nylund, is currently using it for storage; I would be happy to put you in touch with him. I doubt you will have trouble getting permission from him to use the space. While Hilgrave was once a bustling town, these days there are fewer businesses in operation. Many of the town's residents would appreciate the attention a short film might bring to the area.

Best regards,

Brandi Schaertl

- 181.** Why is Mr. Witmondt looking for a filming location in Hilgrave?
- (A) It is known for its scenic mountain views.
  - (B) It is a short distance from his office.

  - (D) Its buildings represent a particular time period.
- 182.** On the contact form, the word “critical” in paragraph 2, line 4, is closest in meaning to
- (A) judgmental
  - (B) essential
  - (C) sustainable
  - (D) available
- 183.** What is implied about 188 Main Street?
- (A) It was once used as a residence.
  - (B) It is frequently visited by tourists.
  - (C) It has several floors.

- 184.** What does Ms. Schaertl offer to do?

  - (B) Arrange to have a building cleaned
  - (C) Connect Mr. Witmondt with a building's owner

Dear Cornelia,

I am sorry for the late notice, but I will not be able to join you for the lecture. My new position at the university in Mumbai requires me to remain on campus.

Although I know you are fully prepared to deliver the lecture on your own, I have attached a copy of the notes I had prepared for the presentation. After you review them, let me know if there is anything else I can add.

I had very much looked forward to traveling to Freeport, The Bahamas, for the first time and to seeing you again. I certainly miss working with you at the City University.

Good luck with the lecture.

## Prospect Data Purchasing

45-Minute Webinar

11 May, 2:30 P.M.

Every department in an organisation needs information to make business decisions. Marketing professionals in particular rely on accurate data about potential customers to be successful. In this Webinar, Briana Carrera, chief financial officer of Pile One Market Data, explains how to avoid the pitfalls of acquiring incomplete data and provides tips on what to ask your prospective data provider to ensure that your next batch of data leads to the results you want.

Dear Sandra,

You had asked me to give you a report on the Webinar I attended yesterday about acquiring data. To be honest, even though the facilitator was clearly knowledgeable, she did not tell me anything I didn't already know. I was hoping that she would show us the differences between the many types of databases out there, but she never touched on that topic. I am not so sure all these Webinars are useful; in the end, they always seem to be steering us to purchase from one particular company or another—in this case it was Pile One. Having said that, the new schedule just came out, and there is another Webinar coming up soon that I am hoping will provide the information I want about how to store and sort data. I have already signed up for it; I will keep you posted about what I learn.

**Posted by Padma Pradhan on Friday, September 23, at 12:34 P.M.**

I took my mobile phone to the Vivi's Tech Fix location on Rivas Boulevard and 23rd Street for help with a cracked screen. I dropped off the phone on a Tuesday afternoon, and by Wednesday morning I had received a quote by e-mail letting me know the cost to fix it. I called to accept the quote and give my credit card number, and I was able to pick up the mobile the next day on my way home from work—as good as new. If you are looking for responsible professionals, Vivi's Tech Fix is the right place.

While I was in the store picking up my mobile, another customer came in. She was also picking up a damaged mobile; however, the technicians had informed her that the device could not be fixed because of severe water damage, so she owed them nothing. I was impressed that customers can get a free diagnostic from the technicians and don't need to pay anything if a device is beyond repair.

**158.** What is implied about Vivi's Tech Fix?

- (A) It has multiple stores.
- (B) It was recently established.
- (C) It repairs mobile phones only.
- (D) It accepts payment by credit card only.

Dear Ms. Gonzalez,

Thank you for your generosity in donating to the Danton Public Library once again last year. Because of donations from you and others, we were able to purchase twenty new computers for our patrons' use. — [1] —. We also acquired a new collection of nonfiction books for our children's room.

At this time, I would like to tell you about another project we hope to complete with additional funds: converting many of our old, worn-out books into electronic files to help preserve their content for future use. This is a costly endeavor. — [2] —. If you are able to contribute even a small amount toward this new goal, it would be greatly appreciated.

If you are unable to make another monetary donation, please consider helping us complete some small renovation projects that we have scheduled for this year. — [3] —. A list of those projects is attached. We hope you will find one that interests you. — [4] —. We look forward to working alongside enthusiastic and engaged community members like yourself to ensure the library's future success.

Sincerely,

Peter Amison, Community Outreach Coordinator

**Questions 168-171** refer to the following online chat discussion.

 **Live Chat**

**Maria Jacinto [10:24 A.M.]:**  
Good morning, everyone. I want to welcome Aika Okura to the chat.

**Aika Okura [10:24 A.M.]:**  
Hi! I'm glad that my bookstore is able to cosponsor the writers' conference this year. It is a great new opportunity for us.

**Maria Jacinto [10:25 A.M.]:**  
We are, too. We have expanded the conference to two days, so the additional sponsorship is a huge help. A larger conference means more sessions and additional hotel arrangements.

**Arthur Rufo [10:26 A.M.]:**  
Speaking of the hotels... The Rowtown Hotel was great last year, but it is booked for the dates we need this time around. The Fairmount at Clark has availability for October 17 and 18, though. It might be better since they have a larger meeting space and more options for the buffet.

**Maria Jacinto [10:28 A.M.]:**  
That sounds good. Can you send us the pricing details?

**Arthur Rufo [10:29 A.M.]:**  
They can offer a special room rate for conference attendees, too. As soon as I have the details, I'll e-mail everyone.

**Maria Jacinto [10:30 A.M.]:**  
Great. How are we doing with the keynote speaker?

**Aika Okura [10:31 A.M.]:**  
Delora Lette has tentatively agreed.

**Arthur Rufo [10:32 A.M.]:**  
Oh. I loved her latest mystery! I can see why it became a best seller so quickly.

**Aika Okura [10:33 A.M.]:**  
Yes, she's great, and I've heard she's also a wonderful speaker. She has another engagement in October in London, and she wants to make certain she can do both events. She will confirm by the end of the week.

**Maria Jacinto [10:34 A.M.]:**  
OK. It sounds like things are coming together. I'll check in again on Friday.

| Subject: | Order #9871                   |

Dear Sir or Madam:

On 24 July, I placed an online order for £180 for three arrangements of white roses and pink lilies on behalf of my company, Nortrax Petroleum. The flowers were meant to be delivered by 10 A.M. the following day for a company banquet that evening.

Unfortunately, the flowers did not arrive until noon. Moreover, the bouquets consisted of pink and white carnations. Worst of all, many of the flowers were either wilted or were shedding petals and thus could not be used to decorate the banquet room as planned. I was surprised and disappointed to be let down by Xanthus Flowers, a company we at Nortrax Petroleum have come to trust and depend on over the last five years.

Since the flowers were for a one-time event, a replacement order is not really an option. Consequently, I would like to receive a refund.

Thank you for your attention to this matter.

Sincerely,

Mindy Nair  
Corporate Event Coordinator  
Nortrax Petroleum

A refund cheque in the amount of £180 has been issued to your company. Because we are at fault, we would like to offer you a 20% discount plus free delivery on your next order.

Thank you for being a loyal customer. We look forward to serving you again in the near future.

Hi, Jung Hee,

I just checked with our deliveries department and I am pleased that our July 10 order was delivered promptly by Singh Supplies as usual. However, now that we've finally moved the items into the warehouse, it appears we inadvertently ordered far too many of the sturdy crates. We use this item rarely, so it could take us years to go through this many. In addition, they're big, so we've had to stack several in the restoration department, where space is already at a premium. Could you contact Achint Singh today and find out if we can send half of them back? Please forward me any instructions he gives you and I'll take it from there.

Thank you!

Fran

### Tolley Praises Local Farms

MANCHESTER (June 2)—Local horticulture expert Cassandra Tolley is scheduled to deliver a lecture Friday night at the Burton Auditorium in Manchester. The owner of Green Ridge Farm in nearby Windham County, Ms. Tolley will discuss the importance of supporting and promoting local farmers.

A strong advocate for small-scale farmers and a small-scale farmer herself, Ms. Tolley has traveled extensively over the past few years to deliver her message of “eating locally.”

“If we make an effort to source our ingredients locally, we not only sustain and assist the local economy, we also encourage variety in the marketplace,” says Ms. Tolley. “And that is beneficial to consumers.”

“Everyone should spend their weekends browsing the regional farmers’ markets,” she adds. “It’s the best place to get your groceries during the summer.”

Friday night’s lecture begins at 7 P.M. It is free, but seating is limited. Please arrive early. To view a comprehensive listing of statewide summer farmers’ markets, visit [www.vermontfarmersmarkets.org](http://www.vermontfarmersmarkets.org).
